Chief Secretary to Government of His Highness
the Maharaja of Mysore, Bangalore.

Sir,

With reference to your docket No.48224/San.50-15-3 dated 3rd January 1916 calling for my opinion on the question of entrusting to the villagers the work of clearing lantana together with the views of the Malnad Improvement Committee, I have the honor to state that the question is a wide one and is beset with many difficulties. If this question is to be confined only to the removal of lantana overgrown on the agricultural lands under the control of the Revenue Department, such laws may be classified under the following 4 heads each class being dealt with separately as explained below.

1. Lands within the village limits.
2. Assessed waste lands.
3. Assessed occupied lands.
4. Measured Government waste including Kharab, Gomal, etc.,

(a) As for lands falling under class 1, I propose that since the work of Extirpating the ~~labour~~ Lantana pest on such lands generally involves too large an expenditure for the ryots to bear, it may be entrusted to the Village Committees and the work carried out on the same lines and on the same conditions on which the Village Improvement works are carried out, half the cost by way of labour being met by the villagers and the remaining half being borne by Government.

(b) In the case of lands falling under classes 2,3 and 4 Government have already issued a set of instructions and sanctioned certain concessions in order to encourage persons to take up such

such lands and render them fit for cultivation by the removal of noxious growth of lantana or prickly pear (vide Government Order No.R.3298-322/L.R.508-09-2 dated 18th November 1910).

All that is now required of the local authorities is only to give wide publicity to the concessions sanctioned by Government and induce the ryots to take full advantage of such concessions and thus make the scheme a thorough success.

Extract from the Proceedings from the Malnad Improvement Committee held at Mudigere on the 18th March 1918, furnishing the opinion of the Committee in the matter of entrusting to the villagers the work of clearing the lantana is also herewith submitted.
